As we #stayhealthyathome,
KLIC is holding a live, online meeting
and presentation on October 27

Breastfeeding and Allergy Considerations

Dr. Natalie Beaven Miller
Family Allergy and Asthma, Louisville

October 27, 2020

Online Access Only

This is a live WebEx webinar. KLIC members will receive information about accessing the live webinar directly through email. Become a KLIC member, or pay \$10 to receive access for CERP/CEU, at www.klicbreastfeeding.org.

6:30 pm	KLIC Meeting
7:00 pm	CE Presentation

By the end of the webinar, the participant will be able to:

- Understand the immunologic/allergy prevention benefits of breastfeeding for infant
- Understand safe allergy treatments for the mother while breastfeeding
- Review current knowledge regarding food allergies and breastfeeding
- Discuss testing modalities

Dr. Natalie Beaven Miller is an allergist and immunologist with Family Allergy & Asthma. She received her undergraduate degree from the University of Kentucky before moving onto the University of Louisville School of Medicine. She completed her residency in pediatrics at St. Louis Children's Hospital/ Washington University in St. Louis and stayed to complete her fellowship in allergy/immunology, as well.

Dr. Miller is board-certified in both Pediatrics and Allergy & Immunology. She and her husband, Dr. Sean Miller, live in Louisville with their 3 children.

CEUs and CERPs will be provided upon program completion. Free to KLIC members. Contact Kristi Schroeder, KLIC Vice-President, at (502) 785-8916 or (502) 292-8440 or Kristina.schroeder@nortonhealthcare.org with questions about the program, location or weather/cancellation questions. In the case of severe weather, KLIC reserves the right to postpone and/or cancel the presentation. This presentation is approved by the Kentucky Board of Nursing (KBN) for 1.2 "Contact Hours", provider # 5-0033, expiration date 12-31-21. 1 L-CERP has been requested from IBLCE.
